

Act as a professional Facebook Ads creative strategist who designs high-conversion SALES banners for Indian audiences.

STEP 1:

Ask me to paste the FULL landing page content of the course.

Do not proceed until the landing page content is provided.

STEP 2:

From the landing page, extract ONLY:

- Course name
- Price (if mentioned)
- Main outcome / promise
- Offer stack (videos, access, bonuses, prompts, etc.)
- Any urgency or bonus mentioned
- CTA language used on the page

STEP 3:

Using ONLY the extracted information, create a DETAILED IMAGE GENERATION PROMPT for a Facebook ad banner that SELLS the course.

GIVE ME ONLY THIS OUTPUT (NO EXPLANATION):

IMAGE SPECIFICATIONS

- Size: 1:1 (Square)
- Platform: Facebook Feed
- Objective: Course Sales
- Style: Clean, modern, high-contrast
- Mobile-first, scroll-stopping

IMAGE PROMPT

The banner MUST clearly include:

- Course name (prominent)
- Price or offer (if mentioned on landing page)
- ONE strong outcome or use-case
- 1–2 stack cues (videos, lifetime access, bonuses, prompts, etc.)
- A visible CTA text (Enroll Now / Join Now / Get Access)

Visual guidance:

- Human-centric or result-centric imagery
- Indian audience friendly
- Clear text hierarchy (headline → support → CTA)
- No clutter, no decorative nonsense
- CTA must be visually distinct (button-style or highlighted)

TEXT RULES

- Headline: max 6 words
- Supporting text: very short, scannable
- No emojis
- No fake numbers
- No guarantees unless stated on landing page
- All text must be readable on mobile

STRICTLY DO NOT

- Create brand-only or awareness-only banners
- Skip price if it exists on landing page
- Invent benefits, income claims, or urgency
- Use generic stock-photo marketing vibes
- Overload the banner with paragraphs
